## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment and written response filed on 07/03/2006 has been entered and considered.
2. Claims 23 and 25-27 have been cancelled.
3. Claim 28 is newly added.
4. Claims 11, 12, 21 and 24 have been amended.
5. Claims 1-22, 24 and 28 are pending.

### ***Drawings***

6. Figure 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

7. Claims 1-22, 24 and 28 are allowed.

The following is an examiner's statement of reasons for allowance:

- a. Claims 1-10 were allowed as indicated in the previous office action.
- b. Independent claim 11 defines a selection circuit that compares a data length of the third data and a data length of the first data; selects the third data in a case where

the data length of the third data coincides with the data length of the first data; and selects the first data in a case where the data length of the third data does not coincide with the data length of the first data. This feature in combination with other features in claim 11 is not taught or suggested by the art of record.

- c. Independent claim 12 is allowed because it has been amended to incorporated allowable subject matter as indicated in the previous office action.
- d. Claims 13-22 are dependent upon claim 12.
- e. Independent claim 24 defines a feature of adjusting the insertion degree by comparing a predetermined threshold value with a proportion of the number N3 to the number NA. This feature is not taught or suggested by the art of record.
- f. Independent claim 28 is allowed by incorporating allowable subject matter as indicated in Claim 11.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
